

Skin Deep

Looking to pursue facial rejuvenation? Then it only makes sense to turn to a cosmetic surgeon who specializes in the aesthetics of the face. With a recent appearance on *Ultimate Living* with

Dee and D'Andra Simmons, Dr. Sandy Sule is one of the country's top facial plastic surgeons specializing in enhancing your own natural beauty. Extensive training as a facial plastic surgeon differs from a general plastic surgeon. Facial plastic surgeons spend the majority of their training operating only on the face. You wouldn't go to an allergist for back problems. It's the same thing here. Facial plastic surgeons concentrate solely on treating and correcting imperfections in face and neck areas.

Though we still feel like a teenager inside, as we age, facial skin and the contours of the face change, making us appear older or more tired than we would like. To help recapture that youthful appearance, or alter a feature you are not happy with there are a vast array of procedures offered at Sule Plastic Surgery. With limited time on our hands many professional men and women are looking for non-invasive procedures with no downtime to fight aging. Now you can enjoy

the results of a facelift at a fraction of the cost without the incisions at Sule Plastic Surgery.

The go-to specialist in facial rejuvenation, Dr. Sule's Liquid Facelift option involves the use of advanced dermal fillers, in combinations with a wrinkle relaxer, to reshape and contour the face. Dr. Sule's Liquid Facelift, an FDA approved procedure, restores years ago facial contours and smoothness, all done without incisions or surgical downtime. "The Liquid Facelift is a very appealing option for many patients who want to join the growing trend of nonsurgical facial rejuvenation," says Dr. Sule.

As one of the nation's foremost experts on Botox®, facial fillers and cosmetic surgery, Dr. Sule's significant research and numerous articles, including a "how-to" manual for medical professionals about Botox® and Juvederm have earned him a peerless reputation as an educator and leader in the field of injectables.

Beauty truly is skin deep. Nurture your skin. It is the largest single organ in our bodies. After your investment in facial enhancement procedures you should keep your skin glowing. There is nothing like beautiful skin to radiate health and youth. It's time to make an appointment with skin care physician, Dr. Aneeta Goomar, M.D. at Sule Plastic Surgery. Dr. Goomar consults with patients on healthy skin and medical skin care issues such as acne, rosacea, and other dermatological conditions. It takes more than products and procedures to achieve great skin. Your skin's glow reflects everything that is going on inside you. After taking a full history, Dr. Goomar works with a holistic approach including stress management, along with nutrition and diet counseling to help achieve skin care goals.

Looking for medical-grade skin care to fight fine lines, loose skin, uneven skin tone, large pores, or scanty short eyelashes? Sule Plastic Surgery Clinic offers the entire skin care line of Jan Marini products to their arsenal of age-fighting tools. Jan Marini's luxe line offers products to help you achieve your skin care goals.
